PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with strong knowledge of HTML, CSS, Bootstrap, JavaScript, Python, and SQL. Currently learning Django and Flask for backend web development and gaining hands-on experience in building responsive and user-friendly web applications. Passionate about problem-solving, continuous learning, and developing efficient software solutions.

EDUCATION

Bangalore Technological Institute
B.E - CGPA -8.33

2022 – 2026
Bangalore, Karnataka

PROJECTS

AI Email Assistant–Auto-Reply System 🔗 | Java, Spring Boot, HTML, CSS, JavaScript, Gemini API

- Developed a responsive frontend utilizing HTML, CSS, and JavaScript. .
- Integrated frontend with backend REST APIs to ensure seamless communication. .
- Collaborated with a team to build an AI-powered email automation system. .
- Gained exposure to full-stack architecture and API integration. .
-

Weather Forecast Application 🔗 | HTML, CSS, JavaScript, Open WeatherMap API

- Developed a responsive weather application to display real-time weather data based on user input.
- Integrated Open Weather Map API for accurate temperature, humidity, and wind speed data. .
- Designed a clean, user-friendly UI utilizing HTML, CSS, and JavaScript. .
- Implemented API handling and dynamic DOM updates to enhance user experience.

News Web Application 🔗 | HTML, CSS, JavaScript, News API

- Developed a responsive news web application that delivers real-time news updates across multiple categories such as Sports, Technology, Politics, and Finance.
- Integrated News API to fetch and display live news articles dynamically based on user searches and category selections.
- Implemented search functionality, category-based filtering, and dynamic content rendering using JavaScript and REST APIs.
- Designed an user-friendly interface using HTML, CSS, and JavaScript to enhance user experience.
- Optimized API handling and frontend performance to ensure seamless access to real-time news content.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL
Frontend Technologies: HTML, CSS, Bootstrap
Backend Technologies: Django (Learning), Flask (Learning)
Core Concepts: Data Structures & Algorithms, OOPS
Tools & Platforms: VS Code, Github
Other Skills: Web Development, Artificial Intelligence Basics

CERTIFICATIONS

- Python for Beginners v2-Great Learning
- Advanced Sql-Great-Learning
